

**Save the Date: Registration Open until 10 of May, 17:00 CET**  
**Adaptation to 1.5°C of Global Warming in Ocean and Coasts:**  
**Urgent Action**

*16 of May 2019, Lisbon, Portugal, 11:45-13:15, at the Lisbon Conference Centre*

***Ocean Climate Action at the European Maritime Day***

**Organizers**

**Coordination:** *Dr. Isabel Torres de Noronha, Future Ocean Alliance, President, Portugal*

**Co-production:** *Dr. Belén Martín Míguez, Centro Tecnológico del Mar, Spain*

**Contact:** [inoronha@future-ocean-alliance.org](mailto:inoronha@future-ocean-alliance.org) and [info@future-ocean-alliance.org](mailto:info@future-ocean-alliance.org)

**Objective:** *Exchanging experiences, identifying successes, needs and challenges and producing short and long-term recommendations targeting enhancing adaptation to impacts in ocean and coastal areas; Raising awareness on the perils of impacts by GHG emissions on ocean and coastal zones under 1.5°C of global warming, and on the need for a coherent and coordinated framework (also) within the EU process to articulate a climate-ocean policy interface for ocean and coasts in global climate action. Impacts are increasing; **adaptation action and decisions are urgent.***

**Main questions:** *What are the best and innovative practices and finance mechanisms for building resilience and adaptation to impacts by anthropogenic GHG emissions and climate change? What works and what does not work? What kind of professional profile, capacities, knowledge and research are needed to address impacts and to build a climate-resilient Blue Economy?*

**Format:** *Set of presentations (30 min) as basis to the Talanoa Dialogue and Debate (50 minutes)*

**What is a Talanoa Dialogue?** *Opportunity for participants, practitioners and experts, from local authorities to international institutions, of the areas of management, policy and decision-making, academia and business communities, to share experiences and recommendations through a constructive storytelling process (more information on Talanoa: <https://unfccc.int/topics/2018-talanoa-dialogue-platform>).*

**Registration with the EMD and Venue:** **until 10 of May, 17:00 CET** at <https://european-maritime-day.b2match.io>. *Limited Places.*

**Registration with Talanoa Dialogue:** *Should you wish to participate at the Dialogue, **after registration in session W02-Climate Action of the EMD**, please inform FOA at [register@future-ocean-alliance.org](mailto:register@future-ocean-alliance.org) of your name, work sector, institution, and what impact/s of anthropogenic GHGs emissions and/or adaptation measures you wish to address.*
